

We stand together as students, teachers, staff, parents, brothers, sisters, grandparents and community members. We commit to work together so that #NeverAgain does there have to be a school tragedy.

May our voice not just be loud, but may it be effective. >>>

#ENOUGH

DEFINE WHAT YOU WANT TO SEE

In your discussion, be clear on what you want to change. Don't be vague and just "want change", but be specific about what you are advocating for. There are a lot of policies and laws that need updated or reconsidered. Focus on one or two and develop a plan for action. Remember, change can take time so don't be discouraged!

ENGAGE YOUR LAWMAKERS

Lawmakers are not working for themselves. They work for us, and your voice influences their decisions. Call and write them today!

Action Steps:

- Contact Jeff Colyer, *Governor of Kansas*: governor.kansas.gov
- Call your US Senators: (202)-224-3121
- Contact KS State Legislatures: kslegislature.org
- Register to vote: ksvotes.org

USE YOUR VOICE

Attend public meetings that the city and state holds on policy and legislation. Start a club on campus, join a grassroots organization in your community or engage in productive online discussion.

WORK TOGETHER

Change happens when we see one another as humans, not as a party affiliation, enemies or outcasts. Together, change will happen. If you ever hear or see something that poses a threat of any kind, utilize our district app to report it through the Tip Line feature. The app is available for free on iOS and Android. For emergencies, please call 911.
